

MEETING REPORT-5

Team Name: W.W.A

Date of Meeting: 11/04/2017

Start Time: 11:00
University

End Time: 12:30

Meeting Location: Epoka

Moderator: Livja Papuciu

Recorder: Megi Bezhani

Other Members Present: Noel Boçi
Eixhan Gruja
Urim Ahmetaj

Members Absent: —

Topics Discussed:

In this session we discussed about user stories, sketching and use cases. We gave some opinions about how to design the desktop application and also the mobile application. We made the first activity diagram, how the work should be divided into specific department. First sketching design were created for the log in page and the layout of the application.

Decisions Made:

We are going to start the design face and come up the final free hand sketches. Next we are going to make the design in Scene-builder for each phase of the desktop applicant and build a more accurate activity diagram.

Tasks Assigned:

Eixhan Gruja- is doing to use the scene-builder to create the first sketch of the layout .

Noel Boçi - is going to create the use cases and activity diagram.

Urim Ahmetaj- is going to assist with the activity diagram together with Noel.

Livja Papuciu- is taking care of the User Stories, Scenarios.

Megi Bezhani- is going to sketch the layout design for each phase.

Next Meeting : Epoka University, 18/04/2017
