### Topics Discussed:

Now we are in the phase of developing the software and we will work mostly towards this. Also we have a few more diagrams left to finish and one or at most two members are going to take care of that.

### Decisions Made:

We need to work more efficiently in order to have the software operational in time, so we have achievable goals set for every time period.

### Tasks Assigned:

**Noel Boci-** Work with developing offline version for the android application

**Megi Bezhani-** Build class diagrams

**Urim Ahmetaj-** Make object diagrams

**Eixhan Gruja** – work with front end, make functions to make it operative and work further with more layouts

**Livja Papuciu-** work with string and maven projects, how they will be applied in the desktop version

### Time, Place, and Agenda for Next Meeting:
