

## MEETING REPORT-5

**Team Name:** W.W.A

**Date of Meeting:** 11/04/2017

**Start Time:** 11:00 **End Time:** 12:30

**Meeting Location:** Epoka University

**Moderator:** Livja Papuciu

**Recorder:** Megi Bezhani

**Other Members Present:**

Noel Boçi

Eixhan Gruja

Urim Ahmetaj

**Members Absent:** ---

### **Topics Discussed:**

In this session we discussed about user stories, sketching and use cases. We gave some opinions about how to design the desktop application and also the mobile application. We made the first activity diagram, how the work should be divided into specific department. First sketching design were created for the log in page and the layout of the application.

### **Decisions Made:**

We are going to start the design face and come up the final free hand sketches. Next we are going to make the design in Scene-builder for each phase of the desktop applicant and build a more accurate activity diagram. Even if the tasks will be divided we will work in continuous relation with one another.

### **Tasks Assigned:**

Eixhan Gruja- is doing to use the scene-builder to create the first sketch of the layout .

Noel Boçi - is going to create the use cases.

Urim Ahmetaj- is going to create the activity diagram.

Livja Papuciu- is taking care of the User Stories (Scenarios).

Megi Bezhani- is going to sketch the layout design for each phase.

**Next Meeting :** Epoka University, 18/04/2017
