Members Absent: ---

Topics Discussed:
Today we discussed about the programming language our project will be developed. We looked on Android studio for the development of our mobile application and are considering Java and c# for the desktop application. We are also considering Scene Builder and Spring for Eclipse.

Decisions Made:
We decided on Android Studio for developing the Android application. Regarding the desktop application, we all agreed on Scene Builder for Java, but some of us still haven't evaluated Spring, so this decision will be made in the next meeting.

Tasks Assigned:
Livja Papuciu- research on Spring and preparing the requirements specifications to be discussed in the next team meeting
Noel Boci- Assess Eclipse Neon version and Spring framework
Megi Bezhani-talk with all members to keep up on what they're doing and edit the wiki group logs
Eixhan Gruja- work on design, come up with a design for the functionalities we have decided on doing, in Photoshop
Urim Ahmetaj- research on Spring and Android studio
